## Shortway Chairman Predicts Area Growth

### Latest Proposal Made By Citizens Committee

HIGHWAY officials in Harrisburg have agreed to give "full consideration" to the Stroudsburg Thruway plan submitted by the Citizens Bypass Committee of Monroe County and headed by Arthur M. Troegner.

The committee's detailed plan, submitted to the Highway Department, would bypass the Stroudsburgs, taking in a long northwesterly

are from the Delaware Water Gap toll bridge to the vicinity of Bartonsville, a distance of about nine miles.

Maj. Gen. George Richards, deputy highway secretary, said the department will give full consideration to the alternate proposal. However, he declined comment on the matter until he has seen the plan.

Richards added, however, that the citizens proposal sounds like the "Green Route," which he said was studied earlier by highway engineers and rejected.

The highway official reiterated his earlier statement that his department believes the state's proposed route to be "the best road we can give you." He added that it is the most economical of

any of the proposals studied, and that it would be the most beneficial to the area.

The state proposal calls for a multi-million dollar, four-lane highway on a route that will take it directly through both boroughs. This plan has been approved by the Federal Bureau of Public Roads as part of the new interstate highway system.

### U.S. To Put Suez Canal Before U.N.

WASHINGTON, April 23 (AP)—Secretary of State Dulles disclosed today the United States will center world attention on the Suez question once again by laying it before the United Nations Security Council, possibly tomorrow on Thursday.

Dulles thus signaled the end of quiet U. S. efforts during the past month to win Egyptian acceptance of the U. N. formula for running the waterway.

"Now that the canal is generally open for traffic, it seems to us that there should be more general public knowledge," Dulles told his news conference.

"It does seem to us appropriate that there should be an early report made to the Security Council and perhaps through the Security Council to the world."

"No Obligation"

Dulles added, the United States has "no objection" to U. S. ships entering the canal—provided they pay tolls under protest.

At the U. N., the U. S. delegation was conferring with friendly members of the 11-nation Security Council on when to call a Council meeting. Diplomatic sources said this was considered a "propitious" time for a U. S. report on its negotiations with Egypt.

Dulles emphasized that the United States would request no U. N. action, but simply file a report.

He indicated he expects Egypt to make a final answer soon to the efforts of U. S. negotiators to win changes in the standing of the canal. But he declined to be drawn out on what he thinks Egypt's response will be.

The United States wants the Egyptian plan for canal operations to be of a more binding character to insure that the canal will not become embroiled in the troubled politics of the Middle East. This is a major aim of the set of principles which were drafted in the U. N. during last year's efforts to win a Suez agreement.

In calling on American shipping to pay tolls under protest, Dulles said this would be protection against possible claims by the company which used to run the canal before the Egyptian government seized it last July 26.

KEYSTONE SHORTWAY: Z. H. Confair, chairman of the Keystone Shortway Assn., outlines the super-highway's probable route at a dinner meeting of the Stroudsburg Lions Club, held last night at the Penn-Stroud Hotel. Another picture on Page 14.

### Confair Airs Survey Facts During Talk

Z. H. CONFAIR, chairman of the Keystone Shortway Assn., last night predicted this area would have the "biggest growth" of any section of the United States if the Federal Bureau of Roads approves the proposed Stroudsburg-Sharon route.

Confair, a Williamsport soft drink bottler, made the prediction at a dinner meeting of the Stroudsburg Lions Club at the Penn-Stroud Hotel.

From an economic viewpoint, Confair maintained, the multi-million dollar super-highway should be built in the northern section of the state.

He explained that 29 southern counties had 40 percent of the state's land area and 70 percent of the population, according to a survey, while 38 northern counties had 60 percent of the land area and only 30 percent of the population.

Since that survey was taken, he added, the disparity has grown even greater.

Outline

Outlining the facts presented recently before Federal Highway Administrator Bartram D. Talamy, Confair noted that a Bradford area group was out to "save Route 6," and had gotten about 10,000 to sign petitions against the Stroudsburg-Sharon proposal.

However, the petitioners later learned that the proposed shortway would be a limited access highway—something they didn't want because it would not go through their towns, he stated.

The most justifiable opposition, he continued, has come from the Bedford area where it was feared that the proposed route would hurt the area's trucking business, and thereby put in jeopardy the jobs of some 1,200 persons.

Confair indicated that a Philadelphia group also was opposed, fearing that it would adversely affect the business of the Port of Philadelphia. However, he replied that the port would not lose business if it was better than the Port of New York.

The speaker complimented Horace Heller, Daily Record general manager, Congressman Francis E. Walter, The American Automobile Assn., and the Pocono Mountains Chamber of Commerce for supporting the proposed Stroudsburg-Sharon route.

### Boy Drowns While Fishing

PHILADELPHIA, N. J., April 23 (AP)—A Pennsylvania boy visiting his grandmother in nearby Bloomsburg drowned today while fishing along the Musconegcong River.

Police reported that when the boy, Robert Polenchar, 14, Bethlehem, Pa., failed to answer the call of his godmother, Mrs. Willard Howell, her husband and brother-in-law went searching along the river nearby.

Police said the men found the boy's abandoned fishing pole and tackle on the bank of the river. When they started to reel in the boy's line, they discovered to their horror that the boy's pants leg was hooked to the line.

Mrs. Howell said the boy had been subject to epileptic seizures for the past eight years. The boy resided with his mother, Mrs. Helen Polenchar, in Bethlehem.

### Boehm Requests Increased Budget

HARRISBURG, April 23 (AP)—Pennsylvania's top education official today called for an increased budget to finance new programs in the future as the state moves to meet expanding school needs.

Dr. Charles H. Boehm, superintendent of the public instruction department, told legislators the state will need additional spending in the next 10 years to keep its school program in tune with systems in other areas.

### Bulletin

STROUDSBURG Fire Department answered an alarm at 1 a. m. today, but it didn't have to go into action.

The fire was reported between the Indian Queen Hotel and 825 Monroe St.

### Jordan Hit By Second Political Crisis

AMMAN, Jordan, April 23 (AP)—This sorely beset kingdom was plunged today into its second political crisis in two weeks. An ugly turn of events threatened.

Premier Hussein Khalidi at a stormy conference fought off demands of all political parties that he and his Cabinet resign.

Khalidi, a man inclined toward secession, has been in office only a seign, has been in office only a week.

Leftist elements called a general strike for tomorrow.

Demonstrations

Small anti-Khalidi demonstrations broke out in the Arab section of Jerusalem and two other west Jordan cities Jericho and Nablus.

The Moslem Brotherhood clashed with Communists in Jericho.

The new crisis arose from charges that young King Hussein's palace was in league with the British and Americans in plots against Jordan's independence and liberty.

The charge was made Saturday by Maj. Gen. Ali Hayari, who fled to Syria and resigned as army chief of staff.

Representatives of all political parties met with Khalidi and his Cabinet of six independents and one National Socialist for a showdown.

King Hussein installed Khalidi after dismissing former Premier Suleiman Nabulsi and his Cabinet made up of pro-Egyptian and Communist factions.

Khalidi and his Cabinet met late into the night.

Strict security precautions were being taken in this capital.

Radios in Cairo and the Syrian capital of Damascus blasted away at the Jordan government in nearly every broadcast.

Newspapers from Cairo and Damascus have been banned in Amman because they made similar attacks.

### Business Good In United States

WASHINGTON, April 23 (AP)—The government today took its quarterly look at business in the United States and found it good.

Americans earned more money and spent more money in the first three months of 1957 than ever before. Employment was high, wages were on the rise, business sales hit an all-time peak and there was an increasing consumer demand for goods and services.

Minor soft spots were noted in steel production and automobile sales. And consumer prices continued to climb.

Sales

The April issue of "Survey of Current Business" released today said personal income in March reached an annual rate of 337.4 billion dollars, up 4 billion dollars from the last quarter of 1956 and up 19 billion dollars, or 6 per cent, from March a year ago.

Seasonally adjusted sales in manufacturing and trade totaled 56.4 billion dollars in both January and February.

### Good Morning!

It was reported the other day that a Tennessee woman, 88 years old, had never seen an automobile. That undoubtedly is why she is 88 years old.

### Depot Contractor Pays \$2,118

WILLIAMSBURG, Va., April 23 (AP)—A southern manufacturer said today he paid \$2,118 to Teamsters Union truck drivers "who sat in the truck and didn't do a thing" at the U. S. Signal Corp Depot at Tobyhanna, Pa.

"I don't consider it extortion," the manufacturer, M. R. Piliand Jr., president of the Williamsburg Millwork Corp., added.

"It's a common union practice some places up north. I didn't like it, but I couldn't do a thing about it."

### Living Costs Set Seventh Straight Mark

WASHINGTON, April 23 (AP)—The nation's living costs continued their steady gradual rise in March and hit a record for the seventh straight month.

Reporting this today, the government said the end is not in sight and a further increase for April is in prospect.

The Labor Department said its index rose two-tenths of one percent from mid-February to mid-March to 118.9 per cent of the 1947-49 base period. This is 3.7 per cent higher than March last year, when the current living cost spiral began.

Higher March living costs mean pay raises for some 1,400,000 workers whose pay rates are partly adjusted periodically to changes in the official government index.

Pay Boosts

About one million workers in the railroad industry will get pay boosts of three cents an hour beginning May 1. Other groups of workers in the electrical, airplane and textile manufacturing industries, as well as scattered other industries, also will get raises of one or two cents an hour. These amounts to an annual pay raise of about 75 million dollars for the affected workers.

The Commerce Department surveyed general economic conditions in the first three months of 1957 and reported some record statistics.

It said today that Americans earned more and spent more in the first quarter than ever before. Employment was high, wages were rising, business sales were at record levels and consumers were buying more goods and services.

H. E. Riley, price division chief of the Labor Department, said food and other major consumer cost categories probably will increase for April.

In March food declined a bit, but this was outweighed by increases in every other major living cost expenditure group.

Wages as well as living costs are advancing.

The department also said the shorter hours, coupled with rising living costs, made March the first month in 2 1/2 years in which "real" spendable earnings of workers showed no gain from a year earlier. Earnings were 3.5 per cent higher in March than a year earlier, but living costs were 3.7 per cent higher.

### Lloyd Applies For Divorce

LONDON, April 23 (AP)—Foreign Secretary Selwyn Lloyd asked for a divorce today on grounds of adultery. He is 52 and his wife is 30.

He is the second British foreign secretary to sue for divorce. The first was Anthony Eden, who later became prime minister. Lloyd has been among Conservative party prominent mentioned as a possible prime minister. A divorce in contrast to not long ago in Britain—would not count against him.

### Unsuccessful Attempt

WASHINGTON, April 23 (AP)—The Air Force was reported today to have made another unsuccessful attempt to fire a Thor 1,500-mile-range ballistic missile.

### Robert Strom Quits TV Quiz While \$192,000 Ahead—Strain Too Much For Mother, Father

NEW YORK, April 23 (AP)—Television's all-time high quiz show winner, Robert Strom, 10, quit tonight while he was \$192,000 ahead.

Robert, who has answered tough questions in different scientific fields for many weeks on CBS' "The \$64,000 Question," broke the record for quiz show winnings last week.

Tonight when he appeared again on the show, his father announced that they had decided the boy should stop.

It wasn't much of a strain on Robert, his father said, but a terrific strain on his mother and father.

Robert, who will get his winnings in three annual installments, deposited in a trust fund, was asked by Master of Ceremonies Hal March how he felt about quitting the show. He grinned and replied: "Well—what can you do with parents?"

### Ike Expresses Confidence On Atomic Race

AUGUSTA, Ga., April 23 (AP)—President Eisenhower today expressed new confidence the East-West atomic weapons race can be halted. He pictured an arms reduction as "indispensable" but likely to be a slow process.

His views regarding efforts to reach an inspection and controls agreement with Russia were outlined in a statement after he had conferred for 75 minutes with Harold E. Stassen, his adviser on disarmament matters.

After the conference at the Augusta National Golf Club, Eisenhower's vacation headquarters, Stassen flew back to Washington for a final session with Secretary of State Dulles then headed for London for United Nations disarmament talks resuming there tomorrow.

Those talks, which started last month and recessed over the Easter weekend, have given United States officials cautious hope that the Soviet Union finally may be about ready to take a small, first step toward disarmament.

No Conference

Stassen declined to hold a news conference after his meeting with Eisenhower. He refused to meet with newsmen, the White House said, because the London negotiations are "only at the halfway stage" with plenty of work still ahead.

But a statement by James C. Hagerty, White House press secretary, encouraged the Stassen-headed U. S. delegation to London to "follow through thoroughly" in serious efforts to win an acceptable agreement.

Eisenhower's expression of confidence the efforts eventually will be successful was reflected in a reiteration of Dulles' remarks on disarmament in a New York speech yesterday at the Associated Press annual luncheon meeting.

"The President reaffirmed," today's statement said, that United States policy is, as stated by the secretary of state in his speech yesterday, that:

"We consider that controls and reduction of arms are possible, desirable and, in the last reckoning, indispensable. It is not essential that controls encompass everything at once. In fact, progress is likely to come by steps carefully measured and carefully taken."

### Order For Newsmen

WASHINGTON, April 23 (AP)—Secretary of State Dulles made a qualified offer today to allow "a strictly limited number" of responsible newsmen to visit Red China in order to give the American people first-hand information on conditions there.

### Polio Shots Ordered For Young Girl

CHICAGO, April 23 (AP)—An 8-year-old girl whose Christian Scientist mother opposed polio inoculations was ordered by the Superior Court today to receive any shots a physician feels necessary.

"It is in the public interest that the spread of such disease should be prevented at all costs," Judge Harry Hershenson said.

He directed that Alyson Conn undergo a thorough physical examination and if the physician orders, take shots against poliomyelitis and any other communicable disease. Judge Hershenson held the question before him was not one of religion but of public interest. Alyson is being reared a Christian Scientist.

The court ruled after hearing testimony favoring and opposing the medical procedure. Two health officials endorsed the treatment, a third questioned its efficacy and a Christian Science spokesman argued "No court has the right to enforce medication."

The subject reached the court through a contest over custody of the child. The mother, Carolyn, 31, is a Christian Scientist and is rearing the child in that faith. The father, Warren, 37, is Jewish.

Conn asked the court to rescind its granting of custody to the mother.

### State's Highway Status Explained

HARRISBURG, April 23 (AP)—The state Highways Department today gave Pennsylvania a close look at the status of the Commonwealth's share of the federal interstate highway system.

Secretary Joseph J. Lawler, issued a detailed accounting of roadway in the state to be made over into limited access expressway under the 25 billion dollar federal program.

Among other things, the report showed that now Pennsylvania's mileage in the network will total 1,430 miles. This is about 16 miles less than estimated at first.

However, the future is likely to change again before the program is completed within the next 13 or 15 years.

### Mitchell To Confer On Union Funds

WASHINGTON, April 22 (AP)—Secretary of Labor Mitchell will confer with President Eisenhower Thursday on possible new laws to prevent misuse of union funds.

James C. Hagerty, White House press secretary, said today that Mitchell has been called to Augusta, Ga., where Eisenhower is vacationing. He said they will talk over the possibility of legislation to deal with developments such as have been turned up by the Senate Rackets Investigating Committee.

The committee, in another development today, announced it will hear public testimony here tomorrow from two alleged prostitutes and a deputy sheriff from Portland, Ore.

This is to be a one-day chapter of the committee's study of vice in Portland and allegations that some Teamsters Union officials were pals and partners of underworld characters and officials accused of corruption.

### Announcement

In announcing the Eisenhower-Mitchell conference, Hagerty said he does not expect that the two will get far enough along at this session to draw up even a preliminary draft of possible legislation.

However, the press secretary said "Yes" when asked whether he expects the administration will ask for legislation before Congress adjourns this summer.

Mitchell announced several weeks ago that the Labor Department was studying the proceedings of the Senate investigation with the idea of farming proposals.

Mitchell has made it clear what he has in mind is legislation requiring periodic reports to the government and to the public of operations of multimillion-dollar union health and welfare funds.

### Vote For Strike

PHILADELPHIA, April 23 (AP)—An official of the Transport Workers Union said today 90 per cent of the union's 25,000 members in 52 locals have voted approval of a strike against the Pennsylvania Railroad.

### Seven Cars Derailed

OIL CITY, April 23 (AP)—The caboose and six cars of a Pennsylvania Railroad freight train were derailed today along the Allegheny River about three miles south of this Venango County town.

DANCE COMMITTEE—Members of the Father Butler Council Knights of Columbus dance committee are pictured above prior to a meeting at the Italian Club last night. The group, left to right, consists of Albert Zatezny, Guy Nicolais, Ed Yost, Tommy Cullen and John Sullivan. The second annual dinner and dance will be held on Saturday, June 22.

## Stroud Union Sets Dates For Registration

PRE-SCHOOL registration in Stroud Union School District will begin Monday, April 29 — by appointment only — and continue through May.

Parents should call for appointments before coming to any of the schools. Numbers to call are listed in paragraphs below.

This schedule has been announced by Roger A. Dunning, elementary supervisor for the district.

Children who will attend Arlington Heights, Clearview and Anahomink Schools are to be registered beginning April 29, at Clearview School. Call 560 for appointments.

Children who will attend Ramsey and Morey Schools begin registration on May 20, at Ramsey School. Call 858 for appointments.

Children living in Delaware Water Gap but who will attend kindergarten at Ramsey and first grade at Delaware Water Gap are to register in the Water Gap building on May 17. Call 858 for appointments.

Children who are starting kindergarten in the fall will have half-hour interviews with Eloise Bryan, the district psychologist. Children entering first grade who have not attended kindergarten are to register at the same time. Children now enrolled in the four kindergartens of the Stroud Union School District need not register for first grade.

For admission into kindergarten in the fall, a child must be five years old on or before Jan. 31, 1958. For admission to the first grade, a child must be six years old on or before the same date.

Kindergarten in Stroud Union is considered the first year of school for all children. Therefore, Dunning said, it is expected that all children who are eligible will register for it. No children will be seen without prior appointments.

Parents For proper registration, parents must bring with them at the time of registration the child's birth certificate and the verification of successful vaccination. If the child has been vaccinated, no child will be permitted to start school in the fall who has not been successfully vaccinated.

Members of the PTAs of the various schools will act as hostesses for the registration program and will assist in recording and checking data.

Dunning issued the following word of warning to parents last night:

"Parents are cautioned against trying to teach a child to read, count or write before the registration appointment. The best preparation is to talk in positive terms about the nice time the child will have 'playing games' with the lady. Threats of punishment for misbehavior or lack of accomplishment only serve to complicate the interview and often result in a wasted session."

## Begin Project Work

HONG KONG, April 23 (AP) — About 10,000 Chinese have begun work on a huge Sining River hydroelectric power project 300 miles southwest of Shanghai, says Peiping radio. The project will supply industrial Shanghai.

## Smithfield School Census Underway In Township

MINISINK HILLS — A Smithfield School census is currently being conducted by a group of Home Room Mothers. The census covers all of Smithfield Township and includes children from one day old to school age. The census must be completed this week.

It is important that families with pre-school children who haven't been contacted for the census contact Allan Sterner, principal of the school immediately.

Next Monday Smithfield School will feature registration and clinic for children entering first grade next September. Parents should bring birth certificates and evidence of successful vaccination. Registration will take place throughout the day.

## Baptist Church Completes Mother's Day Banquet Plans

BANGOR — A Mother's Day banquet was planned by the Youth Fellowship of Mackey Memorial Baptist Church during Monday night's gathering in the social rooms of the church. The fete will take place Tuesday, May 14, at 6:30 p.m. at the church.

Committees appointed for the event include: Donald Mack, Barbara Jones and Carol Bussenger, program; Helen Herring, Ara Morris and Miss Jones, dinner; Ruth Bussenger and Carol Hooper, table; June Everitt and Eleanor Cruver, favors and gifts.

Barbara Jones, president, was in charge. Ruth Bussenger read the scripture, Olga Kowalechuk offered prayer. Pauline Kowalechuk gave the secretary's report. Announcement was made of the Reading Baptist Association meeting at Calvary Church, Allentown, May 4.

Robert Mack was named devotional leader for the next session May 19. June and Marlene Everitt will serve on the refreshment committee. Entertainment will be in charge of Betty Lou Lambert, Ethel Gouger and Ruth Bussenger. There were 19 present.

## 146 Baskets Now Available

SALVATION ARMY League of Mercy distributed 146 Sunshine Baskets to shut-ins in the County Home and the Monroe County General Hospital for Easter. A special program of music was presented to the inmates of the County Home in addition to the gifts.

The Citadel Band during the day played special music outside of the homes of two shut-ins.

Some Sunshine Baskets were presented to the Salvation Army by the Tri-Hill-Y of the East Stroudsburg High School with Carol Hillyard in charge. Others were made by the Ladies Auxiliary of the Acme Hose Co., Mrs. Shelley Hunt, President. The remaining baskets were packed by the Salvation Army Ladies Home League.

## Registration To Be Held Friday

NEWFOUNDLAND — Parents are asked to bring vaccination and birth certificates as well as health records when they visit the annual pre-school clinic for registration of children who will enter Greene-Dreher-Sterling Joint School next Fall.

The registration, which is for children who will reach the age of six years before Feb. 1, 1958, will begin at 9 a. m. Friday.

## Eugene Conley To Appear At College

EUGENE Conley, internationally famous tenor, will appear in the final presentation of the Community Concerts season today at 8:30 p. m. The presentation will take place in the East Stroudsburg State Teachers College Auditorium.

Conley originally was scheduled to be in the Stroudsburg April 19, but due to illness his performance had to be postponed.

Conley has recorded extensively as a soloist, and as a member of an opera cast. It is in this latter field that he has achieved his greatest success. As a consequence, he has sung for many of the largest opera companies in the nation, including the Metropolitan in New York.

Community Concerts is now planning for next year's program, with a membership campaign set for the early fall.

## Large Crowd At Service

A PARADISE Valley "sunrise service" was held Easter Sunday on the lawn of Pocono Mountain Inn. It was well attended.

Keokee Chapel Choir sang "God So Loved the World". A group of young people from the Paradise Valley Assembly of God Church sang a selection.

Rev. Wellard, pastor of the church, offered the prayer and benediction. Rev. Karl Keller, pastor of Keokee Chapel, delivered the message on the theme "Jesus, Our Living Savior."

## Change In Meeting Date

RICHARD SEIDOF, master of the Cherry Valley Grange, reminded members yesterday that there will be no meeting tomorrow. Instead there will be a meeting next Tuesday night, April 30.

As this will be the only meeting in April, all members are urged to attend. Pot luck refreshments will be served.

## Nine Injured In Kunkletown Accident

KUNKLETOWN—Nine persons were injured late Monday night in a head-on collision on Legislative Route 360 here.

Lehigh State Police said the injured included both drivers, Walter Smith, 52, of Kunkletown, and Clair E. Altemose, 18, RD 1, Saylorsburg.

Others were: a passenger in Smith's car, Raymond Eckhart, 43, of Kunkletown, and six passengers in the other vehicle, Richard Serfass, 18, Russell Kresge, Jr., 18, and Forrest Roberts, 18, all of Saylorsburg; John Neff, 23, Effort; David Schoonover, 17, RD, Stroudsburg; and Barry Jones, 17, Wind Gap.

Although details were not available, troopers said the accident occurred about 11:35 p. m., Monday, and resulted in several hundred dollars damage. Three persons were reported to have been hospitalized.

## Killer Makes Court Appeal

PHILADELPHIA, April 23 (AP)—Norman W. Moon, 32-year-old Connellsville man who killed a judge in open court in a rage over having to support his estranged wife, wants Pennsylvania's Supreme Court to set aside his death sentence and grant him a new trial.

**Consideration**  
That appeal was made today before six justices of the high tribunal by Atty. Edward Dumbauld of Uniontown who claimed Moon didn't get a fair trial in May 1964, four months after the slaying of President Judge Allison D. Wade in the main courtroom of the Warren County courthouse.

Justice Herbert B. Cohen excused himself from consideration of the appeal. As attorney general he appointed members of his staff to prosecute Moon.

## Highway Officials To Study Thruway Plans Submitted By Citizens Committee Of County

(Continued from Page One)  
However, a public hearing must be held before final approval can be given by the State Highways Department.

The citizens committee favors "Plan F", which would go through land that is predominantly rural and undeveloped. It would provide access to the twin boroughs via interchanges located east and north of them.

The state-favored alignment, known as "Plan A", would take considerable residential and industrial property. It would provide access to the Stroudsburgs by interchanges within the boroughs themselves.

The citizens committee argues its proposal would be less costly, would better serve the area's traffic needs, would

mean less of an economic loss, and would be safer from a flood control standpoint.

However, Gen. Richards questioned the last point.

One of the report's key points is the contention that the new plan would provide for a Route 209 by-pass without any additional construction, and would eliminate the need for improvement to Route 209.

The committee's maps indicate that Plan F would take traffic from existing Route 611 at an interchange in the Bartonville area and send it initially northeast along the Wigwam Creek Valley to a point northeast of Mount Zion Church.

It would swing southeast in a valley east of Mount Zion Church to Fifth St. in Stroud Township

and on to Eagle Valley Corners at the northern limits of East Stroudsburg.

From there, it would go over Franklin Hill, east of the present Franklin Hill bypass and then on a line roughly parallel to it. It would cross Brodheads Creek downstream from the Cones Board and Carlton Co. plant to the plaza of the Delaware Water Gap bridge.

The report shows interchanges would be located at Bartonville, Fifth St., Eagle Valley Corners, and Minisink Hills.

The committee contends that Plan A will involve vast economic loss in the Stroudsburgs. At least 70 buildings will be destroyed if it is followed, Troegner insisted.

Signers of the citizens committee report were Troegner, Edwin Buck, Montgomery F. Crowe, Henry C. Evans, and Dr. Morton H. Spinner.

## Antique Autos Of Two Nations In Rally

SKYTOP — A double play involving antique autos and an exchange in Angle-American friendship will highlight activities at this Pocono Mountains resort today.

It will be the second Angle-American Vintage Car Rally. Taking part will be 20 auto owners—10 of them on the British team and the other 10 on an American team.

The rally will be similar to one enjoyed last year in Britain by teams from the two nations. Among the Americans who will be "along for the ride" will be television-movie-opera star James Melton.

Car owners are expected to arrive at Skytop late this morning from Easton where they spent last night en route to Skytop from Reading.

The tour began this week in the heart of New York City. The owners—who will be operating ancient car models, many of them of foreign make—will stay overnight at Skytop tonight. They will depart tomorrow for Hartford, Conn., the next stop on their route.

## East Borough School In Forensic Finals

ANNUAL State finals in the University of Pittsburgh Forensic and Music League contest will begin in Bethlehem tomorrow and continue through Saturday.

Main contestants from the local area—and the only ones from Monroe County—will be the East Stroudsburg Area Joint High School Band and John Burrus, son of Mr. and Mrs. Harvey Burrus, 400 Normal St., tuba soloist.

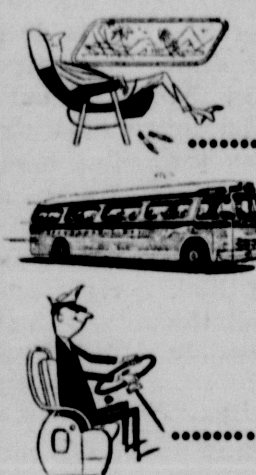

The local high school band has a long and steadfast reputation as a State League prizewinner. It has won superior ratings—the top offered in the contests—each time it was entered. It is directed by Clement Wiedmeyer.

Also taking part in the finals will be the following students from Bangor Area Joint High School: Deanna Kristoff, daughter of Mr. and Mrs. Alex Kristoff, Bangor RD 2, soprano soloist; John DeCesare, son of Mr. and Mrs. Leonard DeCesare, Bangor, trumpet soloist; Drew Landry, last year's champion drum soloist, son of Mr. and Mrs. William Landry, Bangor.

## Congress Ready To Begin Food Study

Rep. Victor Anfuso, a Brooklyn Congressman, is chairman of a House subcommittee about to start trying to unravel the price of food, and how come.

This little job of detective work has been done before, and the answers are fairly obvious. What inspires Mr. Anfuso and his mates to this inquiry is the wide gap between what the food grower gets and what you pay when you pass through the checker's stall at the supermarket.

Take-home food is higher because: Help is higher, freight is higher, rent is higher. And food buyers demand fancier packages and processing, what the trade calls "built-in maid service." The kitchen preparation is finished before the food is bought—ready mixes, frozen products, ready-to-eat goods. These things run up costs. That's apparent.

Not so apparent are the "built-in" taxes hidden in every food package.

Besides the grower, six or eight or 10 "middlemen" get a cut of every food dollar you spend: The buyer, the shipper, the transporter, the assembler, the processor, the wholesaler, the distributor, the retailer. Everyone has to make a profit if he wants to stay in business.

But everyone pays taxes. As the food passes along the assembly line from grower to eater, it keeps accumulating taxes. Every tax is bumped ahead in the price to the next fellow. Income taxes, property taxes, license taxes, sales taxes (Federal, state and local), employment taxes.

The trucker pays gasoline taxes and adds the tax to his shipping charges. The distributor has trucks, too, and pays gas taxes, which he adds to the price for his services. All along the line it goes—taxes on taxes on taxes.

And you know something? When you pick up that just-heated-up frozen TV dinner and plunk down the price for it, you pay all these taxes, accumulated and compounded. Every tax every processor has paid is added into the price you pay.

In World War II Mr. Anfuso was an agent in Wild Bill Donovan's Office of Strategic Services, that famed cloak-and-dagger outfit. Now he has a real cloak-and-dagger game to play—spy out all the concealed taxes, and how many times they are added into the price of a loaf of bread. We hope Mr. Anfuso and his fellow sleuths won't give up the hunt until they have exposed every one of these hush-hush taxes, right down to the tenth of a cent.

## Senate Holds Key To Future Method

It is now up to the United States Senate to decide whether America's story shall be told to the world in a loud, clear voice that can be heard above the thunderous recitation of Communist lies.

It is up to the Senate whether the United States Information Agency shall receive more than the \$106.1 million the House of Representatives has left in the organization's requested appropriation for the next year of \$144 million.

President Eisenhower put the USIA's case clearly when he said Wednesday, "This function is so important that I think cutting dollars here uselessly is about the worst kind of economy that could possibly be practiced."

We thoroughly agree. Much of the criticism that the USIA has drawn in

recent years has been justified. But this agency still bears the burden of telling America's story. As the President expressed it, "the job of explaining to the world what we are trying to do to keep our aspirations, our activities straight before the minds of all our friends as well as others."

During the past five months, the USIA has been under the direction of Arthur Larson, a man who is admirably equipped to direct the cold war against Communist propaganda . . . to set the USIA on the right course.

With the adequate funds asked by President Eisenhower, the United States Information Agency can serve the Nation's cause better than any bomber wing or army corps.

George Sokolsky Says...

## Puerto Rico Paints Picture Of Industrial Paradise Without Chore Of Paying Taxes

The Tax Haven.

No one can blame Teodoro Moscoso, Administrator of Economic Development of Puerto Rico, for trying to inveigle American companies to come to his island to enjoy life without taxes. Puerto Rico is entitled to benefit by whatever means are available to it. But the question does arise whether it is good for the United States that tax havens should come into existence to deprive the Treasury of income.

This is what Moscoso has to say:

"... the Commonwealth Government is now offering U. S. manufacturers such extraordinary incentives that over 450 new factories have already been opened on this lovely Caribbean island in the past five years."

To allay fears, Moscoso says that tax concessions are not granted to runaway plants. That is a fine point. How is it determined whether a plant is "runaway" or is just moving to Puerto Rico to save taxes? The fact is that some very large companies have opened up in the Commonwealth where they find it advantageous to be, although it is not likely that these companies sell much to the people of Puerto Rico. Among them are:

Union Carbide & Carbon, Remington Rand, St. Regis Paper,

Beaunit Mills, International Lateral, Carborundum Company, Shoe Corporation of America, United Drill and Tool, Sunbeam Electric, Uniserv Lens, Weston Electrical Instrument Company.

According to Moscoso's table, if a corporation makes a net profit after taxes of \$29,500 in the United States, that profit without taxes will be \$50,000 in Puerto Rico, and it goes up so that if a corporation's net profit after taxes in the United States is \$485,500, it will be \$1,000,000 if the corporation is situated in Puerto Rico and continues to sell in the United States. Of course, it must continue to sell in the United States because how much can Union Carbide & Carbon or Remington Rand dispose of their products in Puerto Rico? How many Univacs do they buy?

Puerto Rico is also good for the individual. Moscoso gives some figures: If your income after individual income taxes in the United States amounts to \$7,760, in Puerto Rico your net will be \$10,000; applying the same ratios, if in the U. S. the income is \$51,180, in Puerto Rico it will be \$200,000. This is real dough, and we should probably all move to Puerto Rico but what do we do for a living there? A local American receiving dividends from a tax-exempt corporation gets a tax-free dividend.

The Puerto Ricans do not hold out low wages as an inducement to attract new enterprises, but the wages are lower than they are on the mainland and that is an attraction whether it is held out or not.

In a word, Puerto Rico is a tax haven for those who wish to use it as such and because it is a tax haven for some, it adds to the taxes of all the rest of us. In fact, as taxes rise in the United States, the number of tax havens increases, lawyers and accountants who specialize in this field stimulating interest in the concept. In some tax havens, a nominal fee is paid which is so small that it does not matter at all. As taxes increase, this situation will become worse because every sensible person tries to avoid paying taxes and thus far the law has favored the tax evader to the detriment of the rest of us who have to share the evader's burdens.

I have selected Puerto Rico as an example because of Teodoro Moscoso's advertisement which is designed to assist American manufacturers to open a factory in Puerto Rico to manufacture goods which will be sold in the United States and nevertheless no taxes on them will be paid. It is all legal, but is it beneficial to the United States?

The tax-paying citizen suffers a three-way squeeze. First the government fixes a budget without regard to anyone's needs and taxes us accordingly. Then the tax-evader finds a legal and comfortable way to evade some taxes, throwing the burden on other citizens. Finally, there is the illegal tax evader who just does not pay and gets away with it. The only fellow who really has a tough time is the one who pays and who gets inspected and who is required to pay some more plus a six per cent penalty. Let's all move to Puerto Rico.

And an end to chestiness! . . . Bow your heads in reverence . . . Whisper a prayer for her safety For she is the undying symbol Of historic fortitude . . . A mere speck on the ocean, But with valor in every timber And an epic legend in every bolt.

## Letters To The Editor

The Daily Record welcomes Letters To The Editor. The subjects discussed and the opinions expressed are strictly those of the writer and not necessarily the opinions of this newspaper. All Letters To The Editor must be signed with a bona fide address given. Such signatures and addresses will be withheld if the writer desires.

Mr. John Hill, Editor, The Daily Record, Stroudsburg, Penna. Dear Sir:

It is quite apparent that the existing controversy within the Pocono Mountain Baseball League has become slightly more than the word "controversy" would seem to imply. To allow the matter to proceed without comment, even though we think the whole thing a bit on the ridiculous side, would be reckless on our part. Great damage has often been done by little fires that eat their way beyond control, and even this one could reach the spot where the word "control" might become non-existent within the laws and by-laws of the Pocono Mountain League.

The issue involved, in our humble opinion, is neither one of personal wishes on our part, nor is it "sportsmanship." It is certainly never for one minute the suggested problem that the Strouds, because they are the existing champions, are endeavoring to "run the league." It is rather, as we see it, that of placing the word contract in its proper pigeon-hole. It is not a feud between two teams in the league, but the validity and protection of the contracts which should be the very foundations of these two teams. We think, and we learned some from wiser and greater minds than we possess, that, without contracts with all its players, no manager can ever be quite certain on any given game-day just who would be on his bench awaiting instructions, nor who would be out there on the field against him.

Consequently, we are of a mind that, should the worth and the strength of the contract be permitted to decrease in value in the Pocono Mountain Baseball League, all our heads would soon be somewhat muddled by the rapidity with which the very league itself would indeed descend to being just so many sand-lot teams, giving up their present baseball time to go fishing.

The laws and by-laws which operate any group of teams, such as our league, should be fair to all alike. We think this is true of the Pocono Mountain League.

Robert S. Allen Reports...

## Soviets Feature Numerous Rocket Launching Locations

Washington, April 23: There is typical irony in the Kremlin rulers' ferocious threats against their NATO neighbors for resorting to guided missiles for defense.

No nation has been doing that longer and more men a cingly than Russia.

As a result, the Soviet now has the most numerous and far-flung network of launching sites in the world. In the Baltic region alone, where the Reds' fulminations have been particularly violent, they have more of these sinister bases than all the other countries combined.

Coupled with a constantly-expanding arsenal of guided missiles, this vast system of launching sites gives Russia the capability of raining nuclear annihilation on every NATO ally—including the U. S.

This deadly reality behind the gory fulminations of the Communist moguls is bluntly detailed in a remarkable report compiled by staff experts of the Senate Armed Services Committee, headed by Senator Richard Russell (D-Ga.). To be published soon, the comprehensive study will be the first official presentation of Russia's development in guided missiles and rockets.

An extraordinary feature of the authoritative survey will be a map pinpointing the Soviet's major launching bases, missile plants, test centers, schools, and development centers.

Hundreds of launching sites and other installations comprise this vast system, which extends as follows:

On the European side—from the Barents Sea in the north, to the Black and Caspian Seas in the south; across the whole of northern Siberia; in the Far East—from the Anadyr area opposite Alaska, to the Sakhalin Island, at the northern end of the Japanese chain.

The Senate report stresses that its map of these locations is probably far from complete.

Many more unknown missile and rocket plants, development centers and launching bases are likely hidden deep in the interior of Russia. That is believed to be especially so in the immense reaches of inner Siberia.

Where They Are: Dr. Rudolf Hermann, former German missile expert, is the report's authority for the direct threat to the U. S.

Now working for this country, Hermann designed the Germans' supersonic wind tunnel at the famed Peenemunde testing center during World War II. Destroyed by British bombers, it is now in Russian hands. The Senate study quotes Hermann as follows:

"I know the Soviet has missiles capable of carrying an atomic warhead which could reach American cities from launching platforms at sea. Such platforms, designed to be submarine-towed, were developed by Germany during the war, and subsequently taken over by the Russians. Since then, they have done much de-

velopment work on these sea-going launching platforms."

Other highlights of the report on the Reds' far-flung system of missile and rocket launching sites are:

"There are at least 20 major bases in the Baltic region. . . . Important missile bases are located near Riga, capital of occupied Latvia. Offensive installations at Gijka and on the islands in the Bay of Riga, are aimed at Sweden, Norway and Finland. Russia also has many missile sites along the Lithuanian coast, and on the peninsula jutting into the Baltic at Kaliningrad.

"These numerous strategically-located sites give the Soviet virtual control of the Baltic.

"Numerous other missile sites have been constructed from the Baltic, across East Germany, Hungary, Rumania, to the Black Sea. Other sites on the north shore of the Black Sea are obviously aimed at Turkey and the Dardanelles.

"Another group of missile launching sites is on the Kola Peninsula, north of Leningrad, covering the approaches to the USSR from Greenland. A series of installations extends from the Kola Peninsula to the Nordvik Cape along the Arctic Ocean. And the Kamchatka Peninsula and Eastern Siberia have many missile installations covering the approaches from Alaska and the Aleutians.

"The existence and location of hundreds of launching sites near the borders of the Iron Curtain empire have been established, but this does not preclude many more installations in the interior about which information is either not definite or unavailable. . . . It is quite certain that many underground installations of this kind exist in various parts of Russia and its satellites."

The Senate study also emphasizes that the Reds can arm their missiles with chemical and bacteriological warheads.

"The point should be kept in mind," states the report, "that rockets and missiles can be equipped not only with conventional and atomic warheads, but with chemical and biological charges as well. Preventative measures should be undertaken by joint action on the part of the nations of free Europe to deal with this problem."

Fall-Out—During World War II, plans were submitted to Hitler for an "inter-continental missile" to bomb the U. S. This disclosure was made by Ludwig Roth, assistant to the head of a U. S. aircraft company, in a speech to the Solar Management Club in San Diego. A leading German missile designer, Roth is now in U. S. missile development. In his talk he stated, "Late in 1941, plans were presented to Hitler for the construction of a powerful intercontinental missile with the object of bombing the U. S. At that time, it was an important 'crash program.' But this missile, conceived under wartime pressure never reached completion. It did lead directly to intensive development of the V-2 and other missile systems, which, even today, are basic to many present programs."

## Don't Fight People; Let Puppets Do It

By Anne Heywood

The Greeks had a theory that the theatre was a catharsis—that by watching people murder each other on the stage, our normal anger got an emotional outlet which kept us from wanting to murder our kith and kin.

Once, when my son was seven years old, he and a little friend named Marcy put on a puppet show for us. Marcy, who had a brand-new brother at the time, took the part of the girl puppet who complained of "how much trouble stinky babies are."

Jealous Feelings After an hour or so of this, I could see that Marcy had gotten a lot of jealousy out of her system. And when her mother, wheedling the baby, came by later to pick her up, Marcy was almost friendly toward him.

That's one reason why I am in favor of the trend toward amateur theatricals, marionettes and puppets.

So many business girls, for example, have no real outlet for their natural hostilities. All day long, they're being pleasant to customers or bosses. If they are secretaries, they have to act as buffers all day, with no opportunity to strike back. Sometimes a hobby of putting on puppet

## Two Soloists To Appear In Stroudsburg Concert

TWO OUTSTANDING soloists from high schools in Northeastern Pennsylvania will be heard as guest stars during the 1957 Choral Concert at Stroudsburg High School Friday night beginning at 8:30.

They are Teddy McCollum, of Shamokin High School and Mary Ann Reap, of Honesdale High School. Both girls were chosen as soloists at the Northeast District Chorus meeting in Tunkhannock this year and were then invited to be soloists in the All-State Chorus.

Miss McCollum is a contralto. She will be heard singing "Think On Me" by Alicia Ann Scott and "If I Loved You" from "Carousel", the adaptation of "Lilium" by

Richard Rodgers and Oscar Hammerstein II. She will be accompanied by her Shamokin High teacher, Miss Phyllis Bresler.

Miss Reap, a soprano, will sing "Il Bacio" by L. Arditi; Victor Herbert's "Thine Alone" and "Spring Is In My Heart Again" by William Woodin. Her accompanist will be her teacher, Miss Bessie Caulfield.

In announcing the appearance of the two guest soloists on the local high school program, Numa Snyder, director of vocal music at Stroudsburg High School, praised both Miss Reap and Miss McCollum and noted that their appearance here will be "one more recognition of their excellent talents."

## Slate City Moose To Elect Officers

BANGOR — It was announced that officers will be elected at the regular meeting of the Slate City Lodge No. 72, Loyal Order of Moose on Monday, April 29, when members of that organization hold a business session at the lodge home.

All nominated officers have been urged to be present for this meeting.

Members have also been urged to attend the special memorial services to be held in Leighton on Sunday May 5. Any member of the lodge or of the auxiliary that wishes to attend can secure transportation by calling the lodge hall. These services are listed for 3 p.m.

## Stulgaitis Candidate For School Board

JERRY Stulgaitis, Stroudsburg RD 2, is a candidate for the Democratic nomination for school director in Hamilton Township.

**What a Buick!**  
**What a Buy!**  
**What a Dream to Drive!**

THE more you look at a new Buick, the more you realize what a spectacular car it is.

It has a suave new body, ingenious new frame, 150 new features in its chassis alone. It's so low, you feel inches taller. And there's headroom, legroom, foot-room galore.

But what you can't see—what you simply have to feel for yourself—is what happens when you take this beauty to the road. Any road.

We came up with a new kind of steering, new "nested" torque-tube ride, new braking that's smoother, surer, more powerful.

We poured our engineering skills into a completely new V8 engine with the "power-pack" built right in, at no extra cost—a fire-breather, for fair.

And we capped the climax by building a new Variable Pitch Dynaflo\* that can't be beat for snap, sparkle, smoothness.

Granted, you've heard about dream cars, and maybe seen a few at Auto Shows. But here's the first honest-to-greatness dream car to drive!

You can afford a Buick if you can afford any new car. So drop in on your Buick dealer today.

\*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

## LADIES INTO LEATHERNECKS

Josephine commands "eyes right" in this uniform.

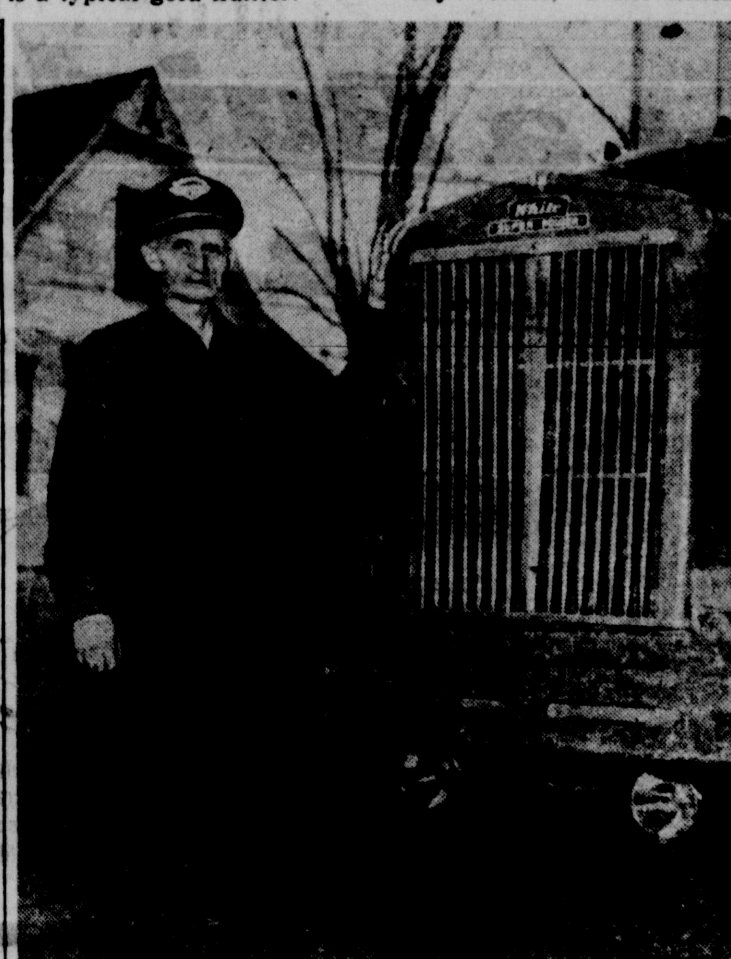

Frieda is adept at giving medical and military shots.

Under the watchful eyes of their drill instructor, they line up for rigid inspection.

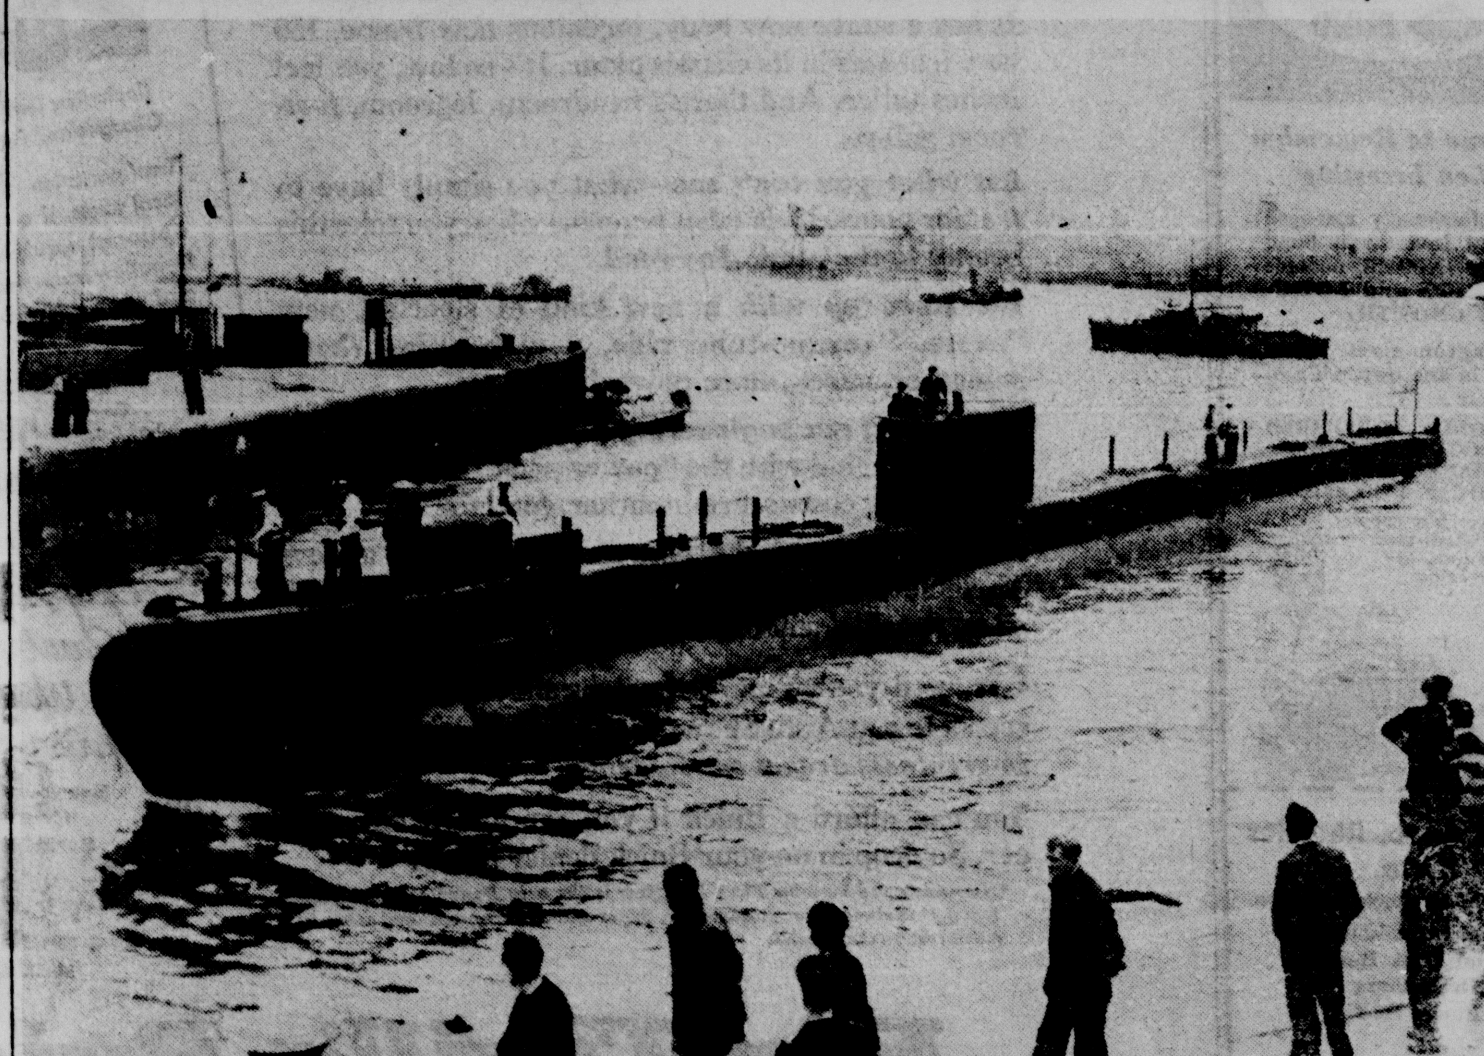

WHEN the Marines "hit the beach," they make the headlines, but when the Lady Leathernecks move on to the beach, they draw whistles and admiring glances. At least, they do if they're wearing the type of "uniform" worn here by Pfc. Josephine Larosa. She belongs to the Women's Marine Communications platoon — a reserve outfit — in Brooklyn, N. Y. The members of this platoon fill important jobs in the vast administration of the Marine corps. Frieda Gross, for example, is a medical technician in civilian life and a marksman on the rifle team. The "D.I." (drill instructor) for this platoon is S/Sgt. Jean Dulinsky, a career Marine who served in the Korean theater during that war. The girls aren't in the platoon just to get another "outfit" for their wardrobes, either. They're serious, hard-working and a credit to their corps. Doubters can get in touch with the brass of the Marine corps to settle any argument on the subject.

## Presbytery Holds Annual Spring Meeting

**THE SPRING** meeting of the Presbytery of Lehigh was held in the First Presbyterian Church of Pottsville, on Monday and yesterday in honor of the church's 125th Anniversary. Charles H. Wolfe, Moderator, presided at the meeting.

The two-day meeting was highlighted by several speeches. In the Monday afternoon session, Rev. August H. Weisel, Pennsylvania representative of the American Leprosy Missions, talked on the "Ministry of Presbyterian Churches to the Victims of Leprosy," stressing the care that is being given the leper, both medically and spiritually.

At the Monday night service, the public was invited to hear Rev. Ernest Campbell, pastor of the First Presbyterian Church of York, who spoke on the topic "God in the Present Tense." In this inspiring message, Mr. Campbell pointed out that God is at work in the world today, spreading his Gospel of salvation and redemption through the witnessing of Christian Laymen as well as by the clergy. Rev. Campbell is a former pastor of the Stroudsburg Presbyterian Church.

Dr. William Hulick, chairman of the Christian Education Committee, stresses that every church should send a delegate to the Wilson Leadership Training School during one of the weeks of July 14 to August 3. Dr. Hulick also said that plans for the youth summer conferences are well under way and that this is to be the best season in the history of Camp Brainerd. The dates for the youth conferences at Brainerd Presbyterian Center are: June 22-29 for Senior High; June 29-July 6 for Juniors and July 6-13 and 13-20 for Junior High.

### Credentials

Dr. Elwyn Tilden, chairman of the candidates and credentials committee, presented Robert Walters, who is a member of the First Church of Bethlehem, and a student at Bloomfield College and Seminary, to be received under care of Presbytery. After a period of questioning, Presbytery approved the testimonial of Mr. Walters. Then the Rev. W. H. Flitton, vice-moderator of Presbytery, performed the ceremony of officially accepting Walters as a candidate for the ministry under the care of Presbytery.

The climax of the two-day meeting came when the memorials were read for deceased elders and the Rev. Newell C. Grimes, the host pastor and the Rev. James F. Anderson officiated at the Sacrament of the Lord's Supper.

Rev. Frank W. Wingerter, pastor of the East Stroudsburg Presbyterian Church, was elected permanent clerk of the Presbytery. Rev. John A. Bollier, of the First Presbyterian Church of Stroudsburg, presented the Stewardship and Promotion Report which outlined the long range planning of the denomination for benevolent giving for the period 1957-62.

Each Church of the Presbytery is urged to have key leaders at the Presbytery Consultation Retreat at the First Presbyterian Church of Bethlehem on June 1 from 10 a. m. to 4:30 p. m. when this advanced program will be discussed by outstanding clergy and lay leaders from the Synod.

In addition to the above, other clergymen attending Presbytery from this area included Rev. Luther Markin, Delaware Water Gap; Rev. Gorman Roof, Presbytery executive with headquarters at Brainerd Center, Snyder'sville; Rev. David Read Edwards, Portland; Rev. Charles Starzer, Roseto, and Rev. Roland Caterall, Bangor. Ruling Elders who attended as Commissioners from this area included Harry J. Smith, Stroudsburg; Albert Sommer, East Stroudsburg; Arthur Cortwright, Middle Smithfield Presbyterian Church and Anthony M. Sabatino, Roseto.

## Story of the Doctor Who Prescribed for Himself

1 Once there was this smart doc who bought a great big hearse of a benzine buggy. It looked so good on the salesroom floor.

2 But this over-chromed, outsized jalopy needed a gas transfusion every few miles. And it was so big and long the doc never could find parking space at the hospital.

3 "I'm suffering from car-itis," said the doc. So he went and looked at a cute little foreign job, but it wouldn't even begin to hold all of his family.

4 Then he looked at Rambler—only car with American "big car" roominess and foreign car economy and maneuverability. "I'm prescribing Rambler for myself," said the doctor.

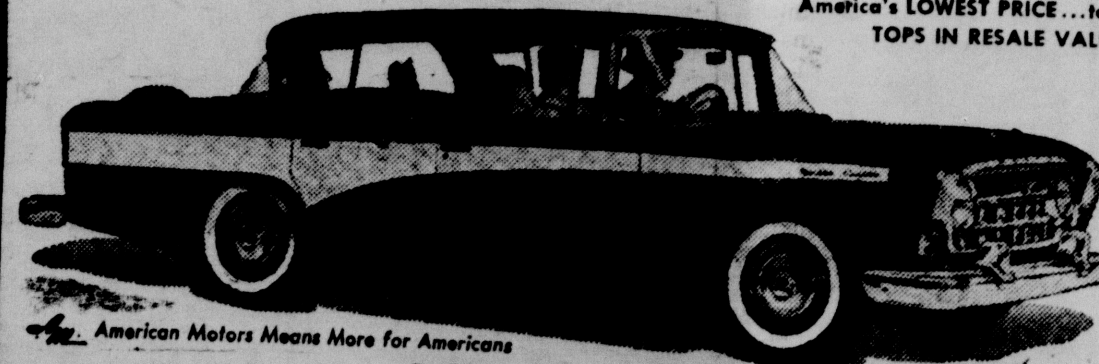

5 It didn't take him long to find out that he could own two Ramblers—both a 6 and a new V-8—for no more than it cost him to own his big, overgrown hulk of a car. So he bought 'em.

6 Now the doc has to fight with his wife and the kids to even get to drive one car. He's at the point where he's about to own three Ramblers. Try a Rambler. You'll see!

## Attention Necessary For Walls

FEW PERSONS give enough attention to the proper selection of wall materials when it comes time to build a finished room in the attic or basement, add an extra room to the house or put up new walls in an old room.

Most of the time the choice of a particular material is made because it looked good in someone else's house . . . or in a show-room . . . or because a neighbor or a relative used it and recommended it.

These reasons are all right in their way—and should have some bearing on your decision—but the ultimate selection should be based on your own needs. The room you are finishing may be used for an entirely different purpose than the one you admired, which might make the wall material in the already-completed room highly impractical for you.

There are many dry wall materials readily available to the retail purchaser these days. Each has its own characteristics . . . and it's the wise buyer who knows why he is spending his money for a particular type of product.

Gypsum board, the least expensive of these materials, is a form of plaster covered on both sides with strong paper. It is sometimes erroneously referred to as plaster board, a term which accurately describes another kind of material used by professional plasterers. Besides being inexpensive, gypsum board has the greatly desirable feature of being fire resistant. Although durable under normal usage, it can be dented if a hard object is pushed against it. Most kinds of gypsum board must be painted or papered and the seams filled with tape and cement. Gypsum board costing a bit more can be obtained with special finished surfaces which require neither paper nor paint.

Asbestos cement board is a first cousin of gypsum board, but is priced about twice as high, which is still less than many other wall materials. This is made of asbestos fibers and Portland cement pressed into rigid panels. It is fireproof and water resistant, making it excellent for laundry rooms, bathrooms and furnace enclosures.

Next we come to fiber or insulating board. It looks something like gypsum board, but has no plaster in it. Its base is composed of wood fiber, sugar cane residue or some other fibrous vegetable material. It is not fireproof, but it is more fire resistant than wood and it has good insulating qualities. Reasonable in cost, it once was made only in white, but now is available in many decorative colors and designs. Its disadvantages: it will not stand up for a long period of time where there is high humidity, such as in a damp basement—and it is susceptible to dents and bruises.

For those who like wood, there is a choice of plywood or solid wood paneling. Plywood, with a price range from the inexpensive to the very expensive, is a tough material made of laminated sheets of real wood. The most common variety is fir plywood, which has a wild grain which must be tamed with the use of a special sealer. Plywood can be obtained in many other wood facings—pine, birch, maple, walnut, oak and so on. The better the facing, the more the plywood costs. And if you don't want to bother finishing the plywood, and are willing to pay extra, you can get prefinished panels.

## Asphalt Continues To Rank Tops Among Waterproofing

WHEN NOAH used asphalt to caulk his ark before the great flood, he was making use of the best waterproofing agent known. Today, despite all the scientific advancements in other fields in the centuries since Noah's time, science has been unable to discover a better waterproofing material than asphalt.

For this reason, modern man uses asphalt where efficient waterproofing is vital—as the basic material in the roofing that protects eight out of ten homes being built today in the U.S.

Asphalt has been weathering the test of time since before the dawn of history by proving it can hold things together and keep water out. In 3,000 B. C. the Sumerians used it to cement ornaments to statues. Many of these ornaments still are intact.

Asphalt was used 30 centuries before Christ to cement brick walls in Babylonia and India. The Egyptians used it as a part of their mysterious formula to preserve mummies.

Asphalt roofing first was made in Sweden near the end of the 18th century. Within a few years the idea caught on in the U.S. and houses were roofed with sailcloth coated with asphalt.

The effectiveness of this crude form of roofing in protecting homes from weather has led to more than a century of continuous research and development.

The result of this research is modern asphalt shingles. These have an "armor plate" of heavier asphalt over the saturated felt to seal the felt and saturant from sun and rough weather. This coating is further fortified by embedding millions of tough mineral granules into the heavy asphalt.

These opaque granules keep sun rays from drawing out the natural oils and resins in the asphalt and make the roof more durable by giving it a covering of stone. Asphalt shingles also get their wide range of colors from the granules, which are colored by a special ceramic process.

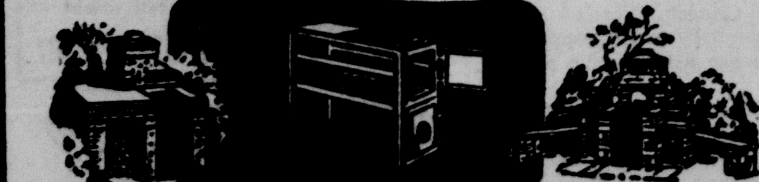

age of 83 in 1847, he left an estate valued at more than \$500 million dollars.

## Wood Panels Within Reach Of Budget

WOOD paneled rooms have been removed from the luxury class and are now within the reach of those with even a modest budget.

This has resulted from the introduction of a special panel product so simple in application that it can be done by the "do-it-yourself" home craftsman.

This product is known as Plankweld, is a packaged item with ten eight-foot, 16 1/2 inch wide, edge-grooved hardwood panels packed in a carton together with the necessary hardware to complete installation.

To apply Plankweld you start at one corner of the room, nailing the corner edge of your first panel to the wall, using the smallest finishing nails to hold it in place.

Next you take the small specially designed metal clips found in the package, and, starting at the top, insert one into the groove of the other panel edge.

Now you hammer a nail, at an angle, through the hole in the clip, nailing into the wall, stud or furring underneath. Do this about every 19 inches down the length of the panel.

Then take the next panel, slide it into the groove of the first panel, covering the clips. Be sure the panel is firmly interlocked as you push it into place.

Next attach clips to the other edge as you did before. Do the same with the rest of the panels needed for the wall. Continue across the walls to the next corner. That's all there is to applying Plankweld. The panel surface is free of marring nail or screw heads.

## Paint Adds Protection To Furniture

THE APPROACH of the "outdoor living" season suggests repainting or refinishing garden, porch, picnic or lawn furniture. These jobs differ from most paint projects, in that weather resistance becomes a most important factor.

Picnic style furniture is bound to have knots and cracks which are part of the rustic effect. These cracks and deep scratches should be filled with putty, plastic wood or stick shellac and allowed to dry overnight. Be sure to apply generously to allow for shrinkage when it dries. Always sand to remove any excess.

**Old Wood**  
If you are working with old wood furniture, remove the old paint where it is chipped or peeled. Use steel wool, sandpaper or paint remover.

For a sealer, use aluminum paint on all patch spots and knots to hold back stains from resin or sap in knots.

Use a generous coat of gloss or semi-gloss or good exterior enamel

for most wood surfaces. To protect wood against moisture, be sure to paint all edges, ends and underside surfaces.

Outdoor furniture should receive at least two coats of paint, preferably three. A 24-hour drying period should be allowed between coats.

Miss Alton J. Kleintop

## Miss Lila Mae Schultz Is Bride Of Alton Kleintop

Gilbert — The Salem Evangelical and Reformed Church, Gilbert, was the scene of the Springtime wedding of Miss Lila Mae Schultz, daughter of Mr. and Mrs. Ellsworth Schultz of Gilbert, on Saturday afternoon at 2:30 when she became the bride of Alton J. Kleintop, son of Mr. and Mrs. Kenneth A. Kleintop of Saylorsburg, RD.

Rev. G. Robert Booth, pastor of the church, performed the ceremony. Martin Eck of Bowmanstown was organist. In addition to the pre-nuptial recital, he played "The Lord's Prayer", "Through the Years" and "O Promise Me".

The bride, given in marriage by her father, wore a floor-length gown of nylon tulle with a lace bodice and handkerchief peplum. It was fashioned with a high flaring Queen-Anne collar, long sleeves and full skirt. She wore a scalloped fingertip veil of nylon which was draped from a small headpiece trimmed with seed pearls and sequins. She carried a white Bible with a white orchid and lilies-of-the-valley.

The maid of honor, Miss Shirley Hock, of Gilbert, wore a waltz-length gown of aqua crystal with a picture hat to match, and carried a colonial bouquet of white roses, blue hyacinth and stephanotis.

The bridesmaids were also in pastel shades of crystalite in waltz length gowns with picture hats to match, and colonial bouquets like the maid of honor's. Miss Jean Berger of Kunkletown was in pink; Miss Carole Kay Anwalt, of Kresgeville, cousin of the bride, was in yellow.

The best man was Roger Christman of Kresgeville. Ushers were Ray Kleintop of Saylorsburg, brother of the bridegroom, and Loren Zeigenfus of Kunkletown.

Following the wedding, a dinner was held for the bridal party at the Trachsville firehall and a reception for all the guests in the evening.

Following the reception, Mr. and Mrs. Kleintop left for a tour of the Southern States. On their return they will reside at Gilbert.

Both are graduates of Polk Township High School. Mrs. Kleintop is employed at Endicott-Johnson in Stroudsburg, and Mr. Kleintop at the Chestnut Ridge Farms, Saylorsburg.

## Legion Aux. Reaches Quota In Membership

BANGOR — A meeting of the executive officers of the Ladies Auxiliary of the E. H. Evans Post 378 was held on Monday evening at the home of the president, Mrs. Jennie Batdorf of Broadway. During the meeting it was announced that the Bangor group has achieved its quota of 147 members in the local auxiliary.

The officers voted a donation of the gifts for the officials of the Four County Council and plans were made to attend the meeting of the Four County Council to be held at Roseto on May 11. Named as delegates were Mrs. Ruth Hahn, Mrs. Edna Buzzard, Mrs. Velma Kern, Mrs. Jennie Batdorf, Mrs. Pearl Carvella, Mrs. Alice Roberts, Mrs. Idella Hester, Mrs. Hazel Groner and Mrs. Leila Buskirk.

## First Fun Nite Thursday For Barrett Youth

Barrett — The first of the Fun Nights for the young people of Barrett Township will be held this Thursday night at the American Legion Home in Barrett. The dances, sponsored by the Legion and the Auxiliary, will be held each Thursday night.

Students representing each class of the junior and senior high school grades are helping to plan the activities which will be directed by Miss Cora Logan of the Key Dance Studio in Cresco. She has successfully conducted similar fun nights in other neighboring communities, including Mount Pocono.

There will be instruction in the basic dance steps, and in new dances, as well as other novelty numbers. All students from the seventh through the 12th grades are invited. A small admission is charged.

## The Bride Cooks Supper With Leftover Steak

What to do with a little bit of leftover beefsteak can be solved by the bride, cooking for two with beefsteak a la Russe. Served with steamed rice, green peas, salad bowl, strawberry sponge cake shells and a beverage, it stretches the budget and makes another treat.

The directions for beefsteak a la Russe:

Ingredients: 2 tablespoons butter or margarine, 1 cup (1 small) finely diced onion, 1/2 pound mushrooms (sliced thin lengthwise), 1/2 cups of stems are attached), 1/2 of a small green pepper (cut into thin strips), 2 tablespoons flour, 1 1/4 cups milk, 1 teaspoon salt, 1 teaspoon lemon juice, 1 1/2 teaspoons Worcestershire sauce, pepper, 1 1/4 cups thinly sliced leftover beefsteak (about 1 by 2 inches).

Method: Melt butter in a 9- or 10-inch skillet. Add onion, mushrooms and green pepper. Cook and stir over moderate heat for several minutes; reduce heat to low and, stirring often cook until mushrooms are wilted—5 minutes or so. Sprinkle with flour; cook and stir for a few minutes. Add milk; stir constantly until thickened. Stir in salt, lemon juice, Worcestershire sauce and pepper to taste. Add meat and reheat quickly. Makes 3 servings.

## THE Wyckoff SHOPPER

Don't know who was having the most exciting time Saturday—our customers or Pete Wyckoff, but everyone seemed unanimously intrigued with the Magic Mirror on the record player in our center aisle.

The Magic Mirror is an attachment sold in our toy department for use on any 78 rpm record player. It is many sided, and each is mirror paneled. Slipped over the rod which holds the record in place, it reflects and animates the cute designs printed on the record label. One, for instance, had a picture of bunnies. When it whirled merrily around, the rabbits, thanks to the mirror, seemed to be hopping about in giddy merriment. It was hypnotic in its effect on the public... everyone who saw it stood there transfixed. This, I thought, will probably be as popular with Dad as the electric train!

Single discs to be used with the Magic Mirror are priced at 1.00, while the mirror, boxed with two records, (four animated pictures) is priced at 2.98. Personally I'm in favor of Magic Mirrors, but the kind I need aren't being manufactured... they're the kind you look in and see yourself the way you'd like to be... the kind they have in heaven!

Spotting a newly published historical novel by Nicholas E. Wyckoff in our book department, I carried a copy to Mr. Wyckoff's office. "This book," I said, "Have you seen it? I was wondering if it's written by a relative of yours."

"Well, it's written by a Wyckoff," he pointed out, "and we're all one family."

"I suppose so," I agreed, "but is it written by a relative you'd wish to admit to, or not?"

Mr. Wyckoff chuckled, as I'd meant him to. "Oh," he said pleasantly, "we Wyckoffs all admit to one another—even the black sheep." He reached for a big book tracing the Wyckoff line in this country, and discovered that there are twenty or more Nicholas Wyckoffs. This particular one, was born in Berkeley, California, in 1906 and spent the early 1930s as a newspaper reporter in Boston and New Bedford. It was while there that he began thinking of a book and this, his first, must be pretty fine for it has been published by the distinguished Macmillan Company and is a Book of the Month Club selection.

"The Braintree Mission" is, I am told, a book with subtle humor as well as historical significance, and has two charming heroines—Abigail Adams and Lady Hester Chatham. Leaping through, I detect that it is extremely "readable" and conversational. But, on page 171, my eye was caught by a phrase that never, but never would pass "Papa" Wyckoff's lips or meet with his approval. "Oh, my goodness, Mr. Wyckoff," I said, "I don't think you'll really approve of Nicholas. Here he writes about crossing the blank blank Atlantic on a fool's errand."

My boss's eyes twinkled. "He's still a Wyckoff," he said, "but then, of course, he's the CALIFORNIA branch of the family."

For all of that, I think "Papa" is pleasantly proud of his literary relative... I notice there's a copy of "The Braintree Mission" in our front window, and would willingly bet there's probably another copy on his own bedside table. The price, incidentally, is 3.50, and it looks to me like a quickly-read 184 pages.

Adelaide Blewitt calls to remind me that tonight our Wyckoff fashion departments are presenting a fashion show at St. Matthew's Parochial School auditorium under auspices of the Altar and Rosary Society. Bill Wells, our fashion merchandising manager is in charge, with Sally Ferber of WVPO as commentator, and I'm told it promises to be particularly lovely. Altar and Rosary members, teen agers and tots will model. Be there if you can!

WE IMAGINE Manager Frank Radler of the Strouds hopes his shortstop Paul (Doc) Lim brings back some of those baschits the former Stroudsburg High two-sport star is banging out at Ursinus.

Lim, over the weekend, continued his phenomenal hitting, posting a 3-for-4 day. This makes eight safeties in the last 11 times at bat for young Doc. And he isn't particular what school he picks on. Last week it was hurlers of Johns Hopkins of Baltimore, and Haverford who fell before Lim's bat.

This Saturday Doc invades the area with his Ursinus teammates, facing Lehigh at Taylor Stadium, Bethlehem.

Benny Jones, former Stroudsburg resident and ex-trainer of the Old Poconos of the now defunct North Atlantic League, has his iron in the fire for the head football coaching positions at West Chester High and Middletown, Pa., highs.

The West Chester post is the same job, East Stroudsburg High mentor Jack Kist stunned.

Jones, incidentally, was recently named head football coach at Lehigh, succeeding Charley Genard who has given up coaching for a position in New Jersey.

THE STROUDS of the Pocono Mountain League feel they have two pitchers who will help fill the vacancy caused by the loss of their ace hurler Bill Sommers, via enlistment to the Army.

Working out with the defending champs of the Pocono Mountain League are Larry Raph of Bangor and Al Schoch of Stroudsburg, each top-notch mound material in his own right. Raph, former Bangor High ace who pitched for his town in the Bi-State League last year, is rated one of the best curve-ball twirlers about, while Schoch has made a name for himself in the past with scintillating performances with Tobyhanna in both the Pocono Mountain Association and League.

Of course, the Strouds, will always have available heady Frank Radler, which is just like money in the bank, and Jack Jacobsen, the best pitcher around for six innings.

However, Bill Sommers' shoes will be a big job especially when you figure that the former Eastburg high fastballer, won 20 and only lost one last year. It's pretty hard to improve on that.

Speaking of the Strouds, the management plans a series of home exhibition games with teams from Easton area, Scranton, Port Jervis and other parts of the Lehigh Valley.

It is the hope of Stroud officials to get in a few airtight contests. However, the present agenda calls for twilight contests with nines from the Bi-State, Blue Mountain and Tri-County circuits.

The Barrett Majors Bowling League will hold its banquet, citing league champs and individual prize winners at the High Point Inn, Mount Pocono, Saturday, May 25.

Fete officials estimate that 75 keggers and their guests will attend the affair, which will get underway at 7 p.m.

A capacity crowd is expected at the Varsity "E" Club of East Stroudsburg Father-Son Midnet Football League Banquet, tomorrow, at the Smith-field school. Approximately 80 grid midnet players will be the guests of the "E" organization at the event. Jack Kist, head coach of football and baseball at East Stroudsburg High, will be the principal speaker.

Happy Metzgar, the New York Yankees' top booster in the area, looks for the Bronx Bombers to clinch the pennant early this year.

Happy, kiddingly said, "I don't see why they don't change the American League race into two seasons, one to the Fourth of July and the other until Sept. 25. This would give the teams another chance after the Yankees had won the chase to Independence Day. Of course, it would be the Yankees in the second half, too."

Seriously Happy, likes the Bombers by 10 games.

LOUISVILLE, Ky., April 23 (AP)—The Derby Open Golf Tournament, liberally sprinkled with champions, gets under way tomorrow, with 100 pros and 20 amateurs shooting for the \$30,000 pot of gold.

# Eastburg Wins L-N Inaugural, Tops Hellertown

## Hickman's Arm, Stine's Bat Lead Cavaliers To 3-1 Win

CURT HICKMAN'S four-hit pitching and Bob Stine's two-run double paced East Stroudsburg High to a 3-1 victory over Hellertown in a Lehigh-Northampton League opener for both schools at Memorial Stadium yesterday.

Hickman, a senior lefthander, held the Panthers at bay in pitching the Cavaliers to their first triumph of the 1957 season. Stine's two-baser sparked a three-run Eastburg rally in the fifth which sent the invaders down to defeat.

## Kist Lists Eastburg LL Drill Slaters

JACK KIST, president of the East Stroudsburg Little League, last night listed the practice schedules for LL players.

Today and Friday workouts will be held at East Stroudsburg Junior High's field for all newcomers (those playing for the first time) and for boys who played in last year's minor (daytime) league. Each drill will start at 5:45 p.m.

Monday, Wednesday, Thursday and Friday of next week, newcomers and minor league players will practice on the Eastburg Jr. high diamond, starting at 5:45 p.m.

**Older Players**

Kist said that old players (boys who played Little League ball last year and in '55 and who are eligible for competition this year) will drill at Little League Park, East Stroudsburg, next week on Monday, Wednesday, Thursday and Friday at 5:45 p.m.

The LL head announced that on Tuesday of next week cleanup of Little League Park will take place. He urged all interested individuals to report to the field for the cleanup at 5 p.m.

Kist also announced that registrations for all players will be held today and Friday at Eastburg Jr. High field, and at Paul Lloyd's Sporting Goods Store.

## Score Slaps 1st Setback On Pale Hose

CHICAGO, April 23 (AP)—Cleveland's youthful Herb Score, a 20-game winner last season, notched his first triumph of the year today with a masterful, four-hit, 5-0 victory over Chicago, inflicting the first White Sox loss in five games.

Score thus averaged a loss to Chicago in last week's season opener at Cleveland when Billy Pierce bested him in 11 innings. 3-2. Pierce was chased today in the third inning, yielding three runs and seven hits.

Cleveland's 10-hit attack included a fifth-inning homer by Rocky Colavito with the bases empty.

Fine defensive play helped the shutout by the sick Tribe hurler, who walked only two. Roger Maris made a great shoestring catch in soggy left field to end the first inning after Nellie Fox doubled with one out.

Chicago had two men on in the seventh as Minnie Minoso led off with a single and Lollar walked. Score's sixth strikeout and a double play ended that Sox threat.

**Fans Seven**

Minoso also singled with two out in the ninth, but Score nailed Lollar for his seventh strikeout victim to end the game.

Pierce was in trouble off the bat. He yielded a single to Larry Raines, playing shortstop for Cleveland in place of Chico Carrasquel, and doubles to George Strickland and Al Smith which gave the Tribe two runs in the first.

The third finished Pierce. After the third Tribe run on a single by Vic Wertz, a walk to Colavito and a single by Bobby Avila, Pierce was yanked in favor of Bob Keegan.

## Sauer's RBI Gives Giants Win Over Bucs

NEW YORK, April 23 (AP)—Veteran Hank Sauer further established himself as New York's No. 1 clutch hitter today by driving in the only run to give the Giants a 1-0 triumph over Pittsburgh as rookie Pete Burnside outpitched Ronnie Kline in a brilliant mound duel.

Sauer, whose bat produced two of the Giants' three earlier victories, singled home Willie Mays who had opened New York's fourth inning with a 450-foot double into the visiting team's bullpen in deepest left field.

**Only Trouble**

Burnside, making his first start of the season, permitted the Pirates only three hits, all singles, and did not permit a runner to reach second base until the ninth inning when Frank Thomas singled with one out and advanced to second when left fielder Wiley Lockman fumbled the ball. The young lefthander was equal to the occasion, however, retiring Dale Long on an infield popup and Dick Groat on a grounder to end the game.

Pittsburgh's other hits were made by Ramon Mejias in the first inning and Groat in the seventh. A strange occurrence took place in the ninth when Mejias, after grounding out, suddenly clutched his left side, in obvious pain, and nearly toppled to the ground. Players from both teams rushed to his aid and he was carried off the field on a stretcher. The nature of the injury was not immediately determined.

**Redleg Homers Down Cards**

ST. LOUIS, April 23 (AP)—The Cincinnati Redlegs regained their home run touch tonight and rewarded Hall Jeffcoat's stout pitching with a 6-4 victory over the St. Louis Cardinals on Bob Thurman's two-run 10th inning pinch-homer.

Frank Robinson and George Crowe bashed homers earlier in the game off Murry Dickson, 40, for the club which tied a major league record with 221 homers last year but started slowly this spring.

**Upholds Burdette**

CINCINNATI, April 23 (AP)—Warren C. Giles, president of the National League, said today neither he nor his veteran umpires believe pitcher Lew Burdette of the Milwaukee Braves has been throwing a spitball.

**Not Interested**

"I'm not interested in prolonging this hassle with Gonzales," Kramer said. "If he doesn't live up to his contract with me, he won't play tennis. I do not expect him to default on his obligations."

"My hand is okay," Pancho said, referring to a cyst on his racket palm which has been given a and a promoter Jack has made a lot of dough for himself. Now I figure it's time I got mine.

"I'm not a promoter and I don't particularly care to be one, but I'd do anything now to protect my interests—even if it called for setting up a tour myself. I'm the best player in the world. I am in a position to call the shots."

In Los Angeles, Kramer said that regardless of Gonzales' statement, "I still have exclusive rights to his services as a tennis player until 1960, with an option

to renew."

"If Jack wants to continue promoting, but give me my proper

share of the money and a say in the operations, well and good. I think I can last longer if I don't have to worry about business details. But I'm not afraid to undertake this responsibility if necessary."

**Irked By Offer**

Gonzales admittedly was disturbed by reports Kramer had offered Australia's Lew Had 125,000 to turn pro next year.

"Where does Jack get off throwing out that kind of money to a fellow who hasn't proved himself," Pancho said. "That's more money than I've made in a couple

## Cubs Hand Braves 1st Loss On Rookie's HR In Tenth

MILWAUKEE, April 23 (AP)—A 10th inning homer by rookie Cal Neuman, his first in the major leagues, gave the Chicago Cubs a 3-2 victory today and handed the Milwaukee Braves their first defeat in six starts this season.

Johnny Logan's double down the left field line followed by Billy Bruton's single to right produced the Braves' first run in the second.

**Aaron Doubles**

Henry Aaron opened the third for the Braves with a double to right that ran his consecutive hitting streak to six games, and moved to third on Eddie Mathews' grounder. Joe Adcock fanned but Bobby Thomson drove in Aaron to make it 2-0.

The Cubs got an unearned run in the fifth when Neuman reached first when Logan muffed his grounder. Elmer Singleton sacrificed and Casey Wiles singled over second to send Neuman home with the first Cub tally.

The Cubs tied it 2-2 with a run in the sixth on Walt Moryn's double off the wall in left, the first earned run off Lew Burdette in 14 1-3 innings, and Gene Baker's single to left.

**Feature Session**

Top matters on the agenda will be the filing of team rosters and a adopting of a schedule for the coming campaign.

At present there are seven entries in the Monroe loop.

**Softball Loop Okays Bylaws**

APPROVAL of bylaws and adoption of the 1957 schedule were okayed at a meeting of the Industrial Softball League at the Stroudsburg YMCA last night.

The league will open its championship season race May 13.

Teams represented at the session were Line Material, Patterson-Kelley, Kulp's Foundry, Empire Box Company, Ronson and Trumaine.

**KASA Umpires**

The loop approved the use of umpires of the Keystone Amateur Softball Association.

Present at the meeting was Forrest Fabel, KASA commissioner of softball in Monroe County.

**Senate Okays Boxing Bill**

HARRISBURG, April 23 (AP)—The Senate tonight approved a bill that would require a new scoring system for boxing bouts in Pennsylvania.

It would direct the judges to give the fighter winning each round five points on his scorecard. The loser of each round would receive less than five points, the winner of the fight being determined on total points.

**'S' Club To Hold Meeting Today**

VARSITY "S" Club of Stroudsburg will hold its regular monthly meeting at the Towne Room of the Town Tavern today, starting at 8 p.m.

Nomination of officers for next year will feature the season. President Tom Somers will be in charge of the meeting.

## Senators Nip Yanks, 3-1, On Seivers' Homer In Ninth

WASHINGTON, April 23 (AP)—Roy Sievers slammed a two-run homer in the bottom of the ninth inning today to bring an abrupt finish to a blistering pitchers' battle and give the Washington Senators a 3-1 triumph over the New York Yankees.

Sievers' blast, his fourth for the circuit this season, lined into the left-center bleachers and wrecked a brilliant mound performance by the Yankees' Johnny Kucks.

It was only the fifth hit off Kucks, but with Eddie Yost on base via a walk it was enough to hand the righthander his first loss of the spring.

**Hyde Victor**

Dick Hyde, a submarine tossing righthander, pitched only one inning to receive credit for a victory set up for him by another sidearm, Ted Abernathy.

Wildness cost Abernathy the run that put the Yanks ahead in the third. Jerry Coleman got one of two bases on balls in that inning, got to second on Kucks' sacrifice bunt and scored on the first of Billy Martin's four singles.

The 5,619 spectators who turned out to Griffith Stadium had to wait until the eighth for the Senators to push a run across. Then it was on a fluke.

Rookie left-fielder Tony Kubek, starting his first game for the Yanks in left, lost Lou Berberet's fly in the sun. The ball dropped 20 yards away from Kubek for a double and enabled Jim Lemon to score from first.

**PROVIDENCE, R. I., April 23**

Harold Gomes, New England's featherweight champion and winner of 10 straight, makes his national television debut tomorrow night as a slight favorite over Chicago's hard-hitting Bobby Rogers at the Rhode Island Auditorium.

The 10-rounder, to be broadcast and telecast coast to coast—ABC, 10 p. m. EST—marks the first time the Wednesday night feature has had Providence as an originating point.

Although he is riding a hot streak and has piled up an impressive 38-3 won-loss record, few outside of the New England area know much about Gomes. The 23-year-old Providence boxer-puncher has had only one fight outside of his home town and Massachusetts.

Rogers, a 21-year-old who started boxing in the Air Force, is about as much a national unknown as Gomes.

A pro since June 14, 1955, he fashioned a 10-3-2 record, including seven knockouts.

## Stroudsburg Hosts Pocono Twp. Today

STROUDSBURG HIGH shoots for its third straight victory of the season today when Jerry Stulgaitis unbeaten Mountaineers take on Pocono Twp. in an exhibition game at Gordon Giffels Field. Game time is 4 p.m.

The Mountaineers will probably split up the mound duties between left-handers Frank Radler and Jimmy Swingle and righties Ron (Super) Phillips, Tom Gross and Byron Weaver.

Pocono, an entry in the Monroe Scholastic League, are expected to send Paul Frailley, a right-hander to the hill at the start, followed by Burdette Peechatka, also a rightie.

### Mountaineers

Stulgaitis will go with the same lineup that mowed down Chestnut-hill and Pen Argyl. Behind the plate will be Don Stopp; Charlie Crumsey will be on first, Barry Tretheway, second; Ron Stopp, short; and Billy Schoonover, third; Dick Crumsey in left; Art Fry or Phillips in center; and Radler or John Hallock in right.

Pocono Coach Harry Werkheiser of Pocono will go with Norb Vishnesky, catching; Larry Starnier, first; Pooley, second, Frailley or B. Peechatka, short; Ron Martini or Marty Zeek, third; and Don Detrick, Ron Shick and Walter Peechatka in the outfield.

## Redlegs 'Hit' For 3rd Time In Three Days

ST. LOUIS, April 23 (AP)—For the third time in three games, a Cincinnati baserunner was called out last night for coming in contact with a ball hit by a teammate.

The latest in the strange string came in the fourth inning of a contest with the St. Louis Cardinals. With one run in and Gus Bell on third and Wally Post on first on consecutive singles, catcher Ed Bailey swatted a line drive which hit Post running to second.

Post was out. Bailey was credited with a hit and the putout went to first baseman Stan Musial who was nearest to the play. Bell remained on third base and the inning ended without further scoring.

### Ump's Judgment

Sunday Don Hoak scooped up a ground ball hit by Post in a game against Milwaukee and tossed it nonchalantly to the Braves' shortstop, Johnny Logan.

Umpire Frank Secory ruled Hoak out on a judgment play.

It all began Saturday when Johnny Temple was struck by a ball hit by Bell.

## Possom Jones Set For 'Horne'

LANGHORNE, Pa. — Possom Jones, convertible stock car driver from Tampa, Fla., does not win many features in NASCAR's National Championship competition, however, he always manages to have his late model stock car around the front end when the checkered bunting is dropped.

Sunday afternoon, May 5, Jones has a very important date at the Langhorne Speedway. He will be one of thirty odd drivers aspiring for the 150-mile National Championship for late model convertibles. In 1956 Jones ran tenth in the 'Horne' classic. He will be piloting a 1957 Chevrolet in the May 5 race.

## Polk Edges Chestnuthill, 6-5, In Monroe Loop Opener

KRESGEVILLE — Defending champions Polk Township opened its bid for the 1957 Monroe Scholastic League auspiciously yesterday by edging Chestnuthill, 6-5 here.

The Hillers extended Polk for five frames before Art Smith's '56 kings put over what proved to be the winning run to break a 5-5 deadlock.

Butch Kresge got the best of Dick Serfass in a hurling duel, allowing the Hillers only five hits and striking out 10. Serfass scattered 10 hits and fanned eight.

### Mockers 3-for-4

Earl Mockers, Polk catcher, led both teams at bat, smashing out two triples and a single in four tries. Altemost was the top stickman for Chestnuthill with two singles.

The same two teams will meet again Friday at Brodheadsville in the second game of the Monroe League season.

## Homers Ruin Major Debut Of Don Lee

DETROIT, April 23 (AP)—Three Kansas City home runs—the last one a tie-breaking smash by Lou Siskas on the first pitch in the ninth inning—ruined the major league pitching debut of Don Lee today and carried the Athletics to a 5-4 decision over the Detroit Tigers.

Harry Simpson drilled a two-run homer in the fourth and Bob Cerv hit a solo blast in a pinch-hitting role in the eighth inning off the 23-year-old right-hander, son of former major league pitcher Thornton Lee.

### Tigers Hit 2

The Tigers had two home runs, one by Bill Tuttle in the second and another by Ray Boone in the fourth, but both came with the bases empty. The drives came off starter Rip Coleman.

## Three Present Pleas Of Innocent

SCRANTON, Pa., April 23 (AP)—Three men pleaded innocent today to charges of defrauding the government and then were denied a change of venue to Harrisburg by U.S. District Judge John W. Murphy.

The jurist denied the application for trial in Harrisburg in asserting that the federal building in Harrisburg "is hardly a fit place for a court."

Judge Murphy is chief judge of the U.S. courts for the Middle District of Pennsylvania.

The defendants are Ralph O. Brownfield, former colonel in the U.S. Air Force; Charles F. Burley, also a former colonel, and Robert E. McNett.

**Former Deputy**  
Brownfield is a former deputy commander at the Middletown Air Depot. Burley was stationed at Wright-Patterson Air Force Field, Dayton, Ohio, and McNett is president of Royal Electric Inc., Jamestown and Dayton, Ohio.

They were charged with defrauding the government on contracts held by the Royal Electric firm for the manufacture of aircraft safety devices.

It was when attorney John W. Bour, counsel for Brownfield, requested court to transfer the trial of the case to Harrisburg "for the convenience of witnesses" as well as other reasons, that Judge Murphy let his sentiments be known concerning the federal court facilities in Harrisburg.

"Your request is denied," he told Bour. He said the court at Harrisburg has "no library, there is no secretarial service, the acoustics are terrible and open windows allow in street noises and dirt. It's hardly a fit place for a court," he declared.

## Dates Set For Red Hearings

**WASHINGTON, April 23 (AP)**—Public hearings on Communist infiltration of industry will be held in Baltimore May 7, 8 and 9 by a House Un-American Activities sub-committee.

Chairman Walter (D-Pa) of the committee, who will preside at the hearing, said approximately 30 witnesses have been subpoenaed to appear.

**Information**  
"In addition to inquiring into the extent of penetration of industry in the Baltimore area," Walter said, "we also hope to obtain information on the current Communist party organization."

"At its recent national convention in New York City the Communist party laid the groundwork for new techniques of conspiracy," he added. "It is essential that the American people learn exactly how the party plans to proceed in this new phase."

## Market Shows Best Gain In Two Weeks

**NEW YORK, April 23 (AP)**—The stock market charged ahead for its best gain in two weeks today.

Turnover also was the best in two weeks, at 2,840,000 shares compared with 2,560,000 yesterday.

The Associated Press average of 60 stocks rose \$1.10 to \$120.20 with the industrials up \$1.90, the rails up \$1.00 and the utilities up 20 cents to a new 1957 high.

Based on the rise in the average, the quoted value of stocks listed on the New York Stock Exchange rose an estimated \$1,340,000,000.

Of 1,189 issues traded, gains outnumbered losses by 535 to 372. There were 101 new 1957 highs against only 35 new lows.

**Active**  
Of the 15 most active stocks, 12 rose and 3 fell.

Bethlehem Steel was the most active stock, up 1/4 at 46 1/4 on 140,000 shares. Second was Chrysler, up 2 at 78 1/4 on \$1,800 shares.

Next came Allegheny Corp., up 1/4 at 18 1/4, and American Airlines up 1/4 at 18 1/4.

But Crane Co. dropped 4 1/4 as its earnings were reported sharply lower and Bohn Aluminum fell 4 on word its dividend was cut to 25 cents from 50 cents.

The steels moved ahead strongly, especially after J. L. Mauthe, chairman of Youngstown Sheet, said the decline in steel industry operations will be short-lived.

Youngstown Rose more than 2 but only temporarily. It closed with a net loss of 1/4.

On the American Stock Exchange prices were higher on volume of 1,020,000 shares compared with 1,040,000 yesterday.

Corporate bonds declined in active trading. U. S. government bonds were mixed with a lower tendency in quiet dealings over the counter.

**Lawmakers Express Doubt Over Bills**

## Lawmakers Express Doubt Over Bills

**HARRISBURG, April 23 (AP)**—Republican lawmakers today voiced doubts over the legislative future of three top education bills—school salary raises and state subsidy payments.

Chairman Wagner (R—Schuylkill) of the Senate Education Committee, predicted defeat of a proposed 21-million dollar teacher pay boost as well as the controversial administration - back plan to eliminate the county office administrative structure.

At the same time chairman Markley (R—Lehigh) of the House Education Committee declared his group will not give any consideration to the pay boost bill until the subsidy question is settled.

"After all, we consider that we are obligated to make up those subsidies to the local districts since we ordered the pay raises in the last session," he explained.

**Subsidy Bill**  
The subsidy bill is substitute for a 3 1/2 million dollar plan vetoed last year by Gov. Leader on the grounds that the money was unavailable. At present local school districts are forced to pay the higher salaries from their own funds without state reimbursement.

Chairman Wood (R—Lancaster) of the House Appropriations Committee, said the subsidy bill will "have to wait until we see how much money we have."

Wagner told of a new plan to reduce the subsidy payment to about 21 millions, for instruction expenses only. The 3 1/2 million figure includes funds for transportation, adult extension education and other fringe items.

Meanwhile, the educator who directed the year-long study that directed the intermediate service area proposal took sharp exception to Wagner's reason for opposition to the organization plan.

"It's an extra layer of school expansion that will cost more money," Wagner declared. "The odds are against passing it this session."

But, Dr. Clarence Ackley, deputy superintendent of public instruction, said, "If this bill is passed there would be absolutely no additional cost during the coming (1957-58) fiscal period."

Other legislative developments:

**Racing**  
Horse Race Betting: The State Council of Churches renewed its opposition to the horse race betting referendum bill before the Senate.

Dr. Claude S. Conley, council president, said that "the attempt by the legislators to call for a referendum on gambling is a strategy to bypass their responsibility in the matter."

School Scholarships: Gov. Leader sent the Legislature a special message recommending a far-reaching program of state scholarships to deserving Pennsylvania students and suggesting revival of the one-cent soft drink tax to finance the program. The governor said the levy should produce 35 million dollars in a two-year period.

The scholarship program would include annual award of 5,000 scholarships; creation of a revolving fund to make loans to students and establishment of a system of junior colleges within daily commuting distance of students.

"I am sure," the governor said, "that almost all of us know of many parents who want desperately to send their children to college—but simply can't accumulate the money to give them this important opportunity."

Bipartisan Conference: Leader after a conference with Speaker Helm of the House, and Sen. Taylor, president pro tempore of the Senate, fixed Thursday, May 2, as the new date of a bipartisan conference on the governor's administration program. Some 200 bills in the self-styled "good government" program are hanging fire in Republican-controlled committees.

The governor originally called the conference for tomorrow, but called it off last week and set the new date today.

Debra was born on March 8, 1957 in the General Hospital. Mrs. Bertha Weingartner, paternal great-aunt of Debra from Irvington, N.J., and Robert Gottler, maternal uncle of Debra, served as her baptismal sponsors with her parents.

## Army Enlistment Program Officially Opens In County

A CONCENTRATED DRIVE to interest Monroe County high school senior boys in enlistment in the United States Army was officially opened last night.

At a small dinner meeting held in the Penn-Stroud Hotel's "Regina Suite" annex, officers of the Wilkes-Barre U.S. Army Recruiting Detachment outlined an information program for use by principals in county high schools.

The major theme — on which the detachment is hitting hard — is that there have been "significant changes" in the Army of today. Lt. Edwin Droese pointed this out by commenting:

"At one time most people thought of the Army as a 'pick and shovel' outfit, taking the brunt of the service. But this is certainly no longer true.

"Today the Army offers a wide selection of training programs for young men who are high school graduates.

"Today the U.S. Army can offer training to young men in no less than 160 schools which will prepare them for 10 major service areas. Those areas are: combat, electronics, electrical maintenance, precision maintenance, military crafts, motor maintenance, clerical, graphics, general technical and special assignments. Individual courses include everything from specialized photography to highly technical industrial training. All of the courses are designed to provide the young graduate with a better foundation for work and life after he has left active duty."

Under terms of "The New Army Program" — which is officially called "Reserved For You" — a high school senior may enroll in a special school prior to his enlistment. A vacancy in that school is guaranteed to him by an official "contact-letter" signed by the Adjutant General.

The Army's program is the only one of its kind, Lt. Droese said, since no other enlistment program offers a guarantee of the preferred school training.

Primary aim of the present program, which would be carried out with the cooperation of school administrators, Lt. Droese said, is to illustrate that the Army hopes, through its own voluntary effort, to help students enroll in the course and service for which they are most suited.

The Wilkes-Barre detachment is "kicking off" its enrollment drive early. It will hold a one day enrollment program in the Penn-Stroud Hotel ballroom on Saturday, May 4 from 10 a.m. to 2 p.m.

## Registration Open For Fun Club

REGISTRATIONS are now being taken for the Monroe County YMCA Summer Fun Club for Girls.

The Program for the girls has been expanded to all day and the activities will be held at Saylor's Lake except for special events and a trip which will be included in each period.

Ages  
The Summer Fun Club is open to all girls between the ages of 7 to 13. The two, two-week periods are: June 24 to July 6 and July 8 to July 19.

Additional information about the Summer fun club can be obtained at the YMCA or by calling 832.

## Communion Observed

SAYLORSBURG — Holy Communion was observed at sunrise service conducted by St. Peter's Evangelical United Brethren Church.

The choir sang "The Holy City." The congregation at the service was the largest since the beginning of the pastorate of Rev. Harold L. Ulmer, the minister said. He has been there six years.

In Sunday School the following persons were honored for bringing new scholars: Nancy Landry, Delores Koehler and Mrs. J. F. Eckley. G. Ford Warner is Sunday School superintendent.

## Plans Set For Rally

BANGOR — Final arrangements for a rally May 4 at Zion Methodist Church, Pen Argyl, were made by the State Belt Youth Council during a meeting at the Salem Evangelical United Brethren Church Monday night. It also was decided to participate in the "Victory in Christ" rally to be held June 25-28 at the Blue Valley Farm Show auditorium.

Committee reports were submitted by Bonnie Slutter, Robert Miller, Marilyn Shimer, Ronald Muhlen, Melvin Slutter, Bernard Bone, Donald Davies and Richard Jennings. The adult adviser, Greenville Jennings, of Wind Gap, was in charge of the meeting.

## Sunbeams To Wear Uniforms

SUNBEAMS are instructed to wear uniforms at their weekly meeting tomorrow night at the Salvation Army Citadel. This examination is necessitated because of the approaching Guard and Sunbeam Rally scheduled next month in Berwick.

## Jerry Weber Makes Debut On Television

JERRY WEBER, a member of Cub Scout Pack 97, made his television "debut" on Channel 6 Monday.

Young Weber was "guest star" on the TV program headed by "Chief Halftown." He won the honor when "The Chief" appeared before local Cub Pack members during "Indian Month" festivities.

The boy is a fourth grade student at the Campus Laboratory School at State Teachers College. He and his mother were given a guided tour of television station WFIL. Many of his classmates and fellow Cub Scout Pack members watched the program. It was seen from noon to 12:30 p.m. on the station.

## Legion To Meet

NEWFOUNDLAND — Phillips Zacharias-Phillips Post 859, American Legion, will meet at the new post home here on Thursday night. Commander Weldon Hector will preside at 8 p.m.

## Display Advertising Copy DEADLINES

Advertising copy deadlines, just as news copy deadlines, are necessary . . . in fact, are imperative to the publication of a newspaper.

Enforcement of deadlines makes it possible to give readers a better newspaper, delivered on schedule. A better newspaper, promptly delivered to all sections of the trading area, means a better advertising medium.

It follows that adequate time for the proper handling of advertising copy, without interference with the mechanics of news production . . . and without jeopardizing the "on time" delivery of the newspaper . . . permits the better handling of advertising copy to work to the advantage of the advertiser in a better advertising medium.

In the interest of better serving ALL advertisers, all copy for display advertising, including CLASSIFIED DISPLAY, must meet the following deadlines:

Monday Copy.....	5 P.M. Friday
Tuesday Copy.....	12 Noon Saturday
Wednesday Copy.....	5 P.M. Monday
Thursday Copy.....	5 P.M. Tuesday
Friday Copy.....	5 P.M. Wednesday
Saturday Copy.....	5 P.M. Thursday

(Holiday Intervening—5 P.M. 3 days before publication)

When Proof Is Required  
Prior To Publication of the Ad

The Deadline Is Noon  
(Instead of 5 P.M.) on the days indicated above
